

INDIA-ONLY PRACTICAL PROGRAM • 2026

Practice the work. Document the learning.

A guided project experience for learners who want structured exposure to representative data and AI deliverables.

India only

Three tracks

Completion-based certificate

A practical cycle from brief to review.

Participants work through scoped, representative briefs with guidance and checkpoints. The emphasis is on sound process, clear documentation and responsible communication—not simulated employment.

How the work is organized

- Orientation and track-specific readiness check
- Defined brief, milestones and expected evidence
- Independent build periods with review points
- Final submission, walkthrough and reflection

What participants practise

- Interpreting requirements and asking useful questions
- Making technical choices within a defined scope
- Testing, documenting and presenting the result
- Responding constructively to feedback

Brief

Clarify audience, inputs and success criteria.

Build

Create the deliverable and preserve evidence.

Review

Demonstrate, reflect and refine.

Important: This India-only paid learning experience is educational. It is not employment and does not include a stipend or promise hiring, interviews, placement or future work.

Three scopes for practical development.

Data Analytics Internship

₹5,000

Build confidence with a tightly scoped analytical brief.

- Data preparation checklist
- Focused analysis workbook
- Compact dashboard or visual report
- Findings summary and reflection

Data Science Internship

₹10,000

Complete a broader project with validation checkpoints.

- Problem framing document
- Reproducible notebook or analysis
- Dashboard or evaluated model
- Readme, presentation and review response

AI Engineering Internship

₹15,000

Integrate multiple components into a documented solution.

- Technical design and delivery plan
- Working data or AI prototype
- Testing and evaluation record
- Demo, risk notes and improvement roadmap

Certificate condition: A certificate is issued only after successful completion of the selected track's required milestones, deliverables and final review. Registration or fee payment alone does not qualify.

Briefs and tools are representative and may be adjusted to match participant readiness and current learning objectives. Confirm track scope, timelines, review criteria and fee terms before payment.

Six steps from interest to completion.

01

Enquire

Share your background, preferred track and availability.

02

Readiness review

Discuss current skills and whether the scope is suitable.

03

Confirm terms

Review written fee, schedule, deliverables and completion criteria.

04

Enroll

Complete the communicated registration and payment process.

05

Build & complete

Finish milestones, submit final work and attend the closing review.

06

Receive certificate

Receive your certificate after successful completion of all stated requirements.

Frequently asked questions

Is this employment or a paid role?

No. This is a paid educational project experience, not employment. No stipend, interview, hiring, placement or employment outcome is promised.

When is the certificate issued?

Only after successful completion of the selected track's required milestones, deliverables and final review.
